

## **Prof. Rima Dada**

AIIMS  
Delhi

Prof. Rima Dada is Professor in the Department of Anatomy AIIMS, Delhi. She is offering genetic diagnostic services in several clinical conditions-infertility, ART failure and endocrinal disorders. She is combining techniques of Reproductive medicine and Molecular biology to provide genetic diagnosis, counselling to infertile couples and couples who opt for Assisted Reproduction and who experience In Vitro Fertilization (IVF) failure. She has also conducted research at Marine Biological Station in Japan. With her expertise, she is working on both nuclear and mitochondrial genome identifying mutations and correlating with the phenotype in infertile men and women. She has received one National and three International awards for her work on molecular and genetic aspect of Infertility and has published her work (>200 papers) in both National and International Indexed Journals and has over 15 chapters in books and 12 chapters in DBT/NAMS workshop manual. She has won 5 awards in national conferences (ICMR Shakuntala Amir Chand Prize, GP Talwar Gold medal, Rashtriya Gaurav Award) and three international awards for her work on genetic aspect of infertility.
