

Prof. Savita Yadav

AIIMS,
New Delhi

Prof. Savita Yadav is a Professor in the Department of Biophysics, AIIMS, Delhi. Her research interest is in Protein Science and Functional Biophysics. She is trying to get molecular insights of mechanisms of gain of medically relevant biological processes and medical processes related to male infertility, prostate cancer, oral carcinomas and dental caries; Clinical and carcinomas and expression proteomics for identifying disease expression disease biomarkers; Proteomics of medicinal plants biomarkers plants for screening clinically relevant proteins. She has received many awards and honours that includes- AIIMS Excellence Award, Young scientist Award from Indian Science Young Science Congress Association. Prof. Savita Yadav has published her research in journals of great scientific repute.
